We don't like this world we've made. Bring it down,
bring it down.
We'd take a world more free in trade. Bring it down,
bring it down.
Risk the fire in the midnight sky,
And the rain of hell when the ashes fly.
Just so long as the generals die! Bring it down, bring it
down.
Bring it down, bring it down.

We don't like the work we do. Bring it down, bring it
down.
Nothing useful, safe, or true. Bring it down, bring it
down.
Faceless beaurocrats in the hills
Drive us down at the pace that kills.
They get dividends, we get bills! Bring it down, bring it
down.
Bring it down, bring it down.

We don't like society. Bring it down, bring it down.
No one here is really free. Bring it down, bring it down.
Freedom's dream has fallen far.
A million rules have dimmed it's star.

We don't like the way we are! Bring it down, bring it
down.
Bring it down, bring it down.

Laws and orders hem us in. Bring it down, bring it
down.
Give us our frontier again. Bring it down, bring it down.
Slowly growing deepset rage
Breaks the bars of a paper cage,
'Till the gear wheels disengage! Bring it down, bring it
down.
Bring it down, bring it down.

No reform will save the day. Bring it down, bring it
down.
Sweep this garbage all away. Bring it down, bring it
down.

Fearless rage and deathless hate
Grow the worse, the more we wait.
To save our planet, smash the state! Bring it down,
bring it down.
Bring it down, bring it down.
Bring it down, bring it down.
Bring it down, bring it down
