Lean closer, cause I can't scream this for all to hear me  
Spill this confession  
All day is spent dreaming of all the possibilities  
We could make with our creative minds and bodies

In the meantime, while you're flying over the ocean  
I'll be waiting, contemplating all you've shown me

Oh, baby, I am overcome with love for everything  
And not just anything, it's you and your ability  
To make it so inviting and so inspiring

Just a simple little love song for you to just  
Receive in silence  
Over here, I got a little ambitious over-stating  
My invading thoughts of you and I in all kinds of ways

Oh, baby, I have got to tell you  
Things that you could only  
Dream of hearing  
I need to breathe you daily  
And you can breathe me too  
If you should so choose  
I hope you do

Lovely fingers, play for me  
For the rest of this  
Our tie completely  
Holds us to our words  
And to each other we can make up new ones  
To equate what resonates between the space  
We close so often  
I am dumbstruck at the thought  
Of what I did before  
Before, before you came along
