verse one

what's the fuss
people talkin
i know their thinkin that there's something aint right
and when they ask me i just smile and blush
they wanna kno but i aint gonna give it to them babe

cause when we get together theres something in the
air
i used to fight them and now i just dont care

Chorus

how did you do it i never understood
how could further education feel this good
crossing every t connecting every dot
you dont even know what you got
baby howd you hit the spot
