I'm a little crazy on you
I can't help myself
Tell me what am I supposed to do

And you're a little hard on me
Guess you don't want me to see
How honesty gets the best of you, baby

Say you don't mind one way or the other
Whether we're apart or we're together
You think you're so cool with your 'whatever'
You put on quite an act,
But babe, I know you better than that

Look at me and then you look away
As if there's a price to pay
For giving me a little time

Still you follow me around
As if I'm the only face in the crowd
And I'm your every sigh I'm your every sound

You say you don't mind one way or the other
Whether we're apart or we're together
You think you're so cool with your 'whatever'
You put on quite an act,
But babe, I know you better than that

Com'on Baby give it up, give it up
Baby give it up, give it up

Oh, you say you don't mind one way or the other
Whether we're friends wheather we're lovers
You think you're so cool with your 'whatever'
You put on quite an act,
But babe, I know you better than that

Oh, you put on quite an act,
But babe, I know you better than that.
