Driven by her will to survival  
She's always standing by to meet you  
riding a wave  
Pretty, she makes the most of your honest words  
You say that you can't let her in  
Don't mind if she needs you

Go ahead 'cuz it's Different for Girls  
and it's always been Different for Girls  
He says he just needs time  
ooh

He was so sure  
the first time it felt that way  
until she said, no, no  
there's not a chance to give me

Go ahead 'cuz it's Different for Girls  
and it's always been Different for Girls  
He says he just needs time  
ooh

Lock-down in understanding  
Break up the morning after  
Watch out for daisies falling  
Lost in wonder

and yea it's different

Go ahead 'cuz it's Different for Girls  
and it's always been Different for Girls  
He says he just needs time  
Go ahead cuz it's Different  
yea you know that it's Different for Girls  
he says he just needs time  
and yea yea
