My techno queen, his game show dream  
Go spin my wheel, so freakin' entertainin'  
I fantasize, feel so sublime  
Cake and balloons  
Where's my invitation?

Chorus:

Like a time bomb tickin' on the radiowave  
And I'm dancin' on the table with the strawberry shake  
Feel like getting down, dirty on the bucket of love  
On the radiowave  
With a velvet sweater and a rocket that's green  
I was jaded by the cover, girly magazine  
But here we are now just lettin' it flow  
On the radiowave

My cyber doll, kitty carry-all  
Why don't you come join me for the party  
Surf that highwave straight to P.A.  
Figure it all out  
There's too much information

Chorus

Radiowave, radiowave  
1,2... 1,2,3... Go

Chorus

With a velvet sweater and a rocket that's green  
I was jaded by the cover, girly magazine  
But here we are now just lettin' it flow  
On the radiowave
