She sends me
Poetry i can't read
She looks at me
With eyes i can't see right now
And she said
Static voice
I stopped dead
Hearing
I am another rapist
I am her father
I am the sum of her fears
In all my anger
I am ignited desire

And she is burning
I am another rapist
I am her fucking father
She told me
What she thought i was
And i said
I don't want this anymore
She wants me lonely
I won't feel
She pulls at me
With lies i don't believe
