I am so fucking glad
So happy that i met you
I am so fucking glad
That you're a part of me
I am so fucking glad
So happy that i know you
I am so fucking glad
So proud to know your name
Aren't you?
Aren't you so happy to know me too?
I am so fucking glad
It really warms my heart up
I am so fucking glad
Just to see you
I am so fucking glad

I love to hear you laughing
I am so fucking glad
You'll never go away
Every minute i give to you is
Another piece of my life
That i'll never get back
Every minute i give to you
To do with what you will
I don't think you understand
You can buy my ass and
You can buy my time
But you can not buy my mind
