

## Less "Mortar"

Visit "[Mortar](#)" on MotoLyrics.com

Angels never cry  
Staying dumb within their wings  
Vacant in the light  
Hollow melting wax  
Devils shit at my feet  
In sweaters like toy dogs  
They dodge all of my my kicks  
And laughing they remain alive  
Thunder on the overpass  
Knowing these feelings will pass  
I won't fall tonight  
Three girls follow me

Holding a ball of twine  
Two want to string me up  
One wants to cut me down  
Waste from above anoints me  
Caresses my smiling mouth and  
Flows into my wide eyes  
Reminding me that i'm still alive  
Freedom when the power fails  
Watching you all disappear  
I won't fall tonight  
I will fly tonight
