

Lesser Key "In Passing Through"

This temptations dangerous
Wishing to pull me in toward the center
But the more I go the less I feel
The truth is wearing off and the lies becoming real

Open doors climbing up the mystic staircase
I'll be back before you know
I'm loser to understanding where they go
I'll be back before you know I'm gone

Angle of the truth and a side I have not seen
Curious to know if the fire burns at both ends
All I am is all I was before
But I'll never fully uncover the veil of consciousness

Open doors climbing up the mystic staircase
I'll be back before you know
I'm closer to understanding where they go
I'll be back before you know I'm gone

Open doors climbing up the mystic staircase
I'll be back before you know
I'm closer to understanding where they go
I'll be back before you know I'm
