Always searching for hope to hold
Unbearable this life, barren and cold
Restless souls full of sorrow and fears
Smooth rain never cleansed of our tears

Left alone in afterlife
With a lecherous gaze, life is watching us
You're melting there in a marble maze
We're puppets of the harsh life in this daze

This wretched darkness came down a night
Devil dragged us into insanity
Agony have us turned down, nowhere to hide
In your journey to infinity

Melodies of the past echoes in our jail
A crying child behind you always we hear
Agony's getting worse always near and near
Your eternal void is that we only feel
