You've got me thinking devotion, i dont need it

Theres something about you, something you're
missing
And you cant get your head together
Always got what you wanted, you thought you were
special
Well tell me where did it ever get you

Ooh sweet thing of mine, ive gotta tell you now
You've got me thinking devotion, but i dont need it
You're playing with my emotions but i dont need it

You're a loving sensation, of your own making
A human dynamo of passion, needing satisfaction
Instant attraction, i tell you my love would never be
enough
Ooh sweet thing of mine, ive gotta tell you now

Ooh sweet thing of mine, ive gotta tell you now
You've got me thinking devotion, but i dont need it
You're playing with my emotions but i dont need it

I dont need it, this dynamo passion, will you be faithful
My human dynamo of passion?
I said freedom comes so let me be
Freedom calls so set me free, i said

Ooh sweet thing of mine, ive gotta tell you now
You've got me thinking devotion, but i dont need it
You're playing with my emotions but i dont need it
(ad lib to fade)
