Mrs Robinson im happy to be this way
Hello special one you've been so hard to find
Rumour has it you're in love with me
I got to thinking just the other day
The kiss, the cuddle, oh its never felt this way

A little glance from you is all it took to steal my heart
And i noticed from the start
How i loved your smile

I just love your smile, makes me feel alive
Makes me feel so high
So baby you be mine

Just the other day when the postman came
I hid behind the door as the letter fell
On opening found such a pretty rhyme
And there and then i knew that your heart was mine

A little glance from you was all it took to steal my heart
And i noticed from the start
I loved your smile

(I just love you smile) I really love your smile
(Makes me feel alive) Makes me feel so high
(Makes me feel so high) You make me feel so high
(So baby you be mine)

Mrs Robinson - Im happy to be this way

I just love your smile, makes me feel alive
Makes me feel so high
So baby you be mine

Do Do Do Do Do - Repeat
