When you please me  
When you tease me  
When you hear our favourite song  
When the silks out  
There is no doubt  
When the phone rings dont you answer  
Say we ought to in the water  
Get the feeling as we're peeling down

Turn all the lights out  
Lets slow the music down  
Turn all the lights out  
Love like theres no tomorrow

You know we need to  
In the bathroom  
In the classroom  
Lets do it when theres  
Everyone around  
You know its exciting  
When you're biting  
You know just every part that  
Makes me shiver

Turn all the lights out  
Lets slow the music down  
Just curl up beside me  
Love like theres no tomorrow  
Just love  
You wont upset me  
If you say no once or twice  
You know that love leads to wanting and i want you all  
the time  
Hey

Oh! Yeh  
So when you tease me  
Talking filthy  
When you're steaming  
When you're peeling  
When you're striping down

Turn all the lights out  
Lets slow the music down  
Whenever you want it  
Whatever the time of day  
Turn all the lights out  
Love like theres no tomorrow  
Turn all the lights out  
Just love  
Turn all the lights out  
Lets slow the music down  
Whatever the weather you know its time to play  
Turn all the lights out  
Just curl up beside me  
Just love  
Love like theres no tomorrow  
Turn all the lights out  
Ah Oh!  
Turn all the lights out  
Love like theres no tomorrow

Turn all the lights out  
Lets slow the music down  
Turn all the lights out  
Love like theres no tomorrow
