Tell me how bad...

Well fashioned entrances
Tend to turn heads
I came to break necks
And get in their beds

They won't deny me
What I came to see
'Cuz they all wanna be
Number one on my team

Tell me how bad
Do you want it?
Oh you want it...

I'm throwing all kinds of fire
And by your attire I see you admire
My walk, my pose, you come to all my shows
And you think I never notice
(Well) it's time for you to show me just

How you say that you're game
(Down for whatever, whenever, you're waiting for the
word)
Well today is your day
(And games I don't play)

Just move when I say...

Tell me how bad
Do you want it?
Oh you want it
But how far is to far?

This is the sign
That you've been waiting for
Grab your composure
'Cuz baby it's check-out time

Tell me how bad
Do you want it?

Oh you want it
But how far is to far?

This is the sign
That you've been waiting for
Grab your composure
'Cuz baby it's check-out time

And I...

I'll stay up waiting in the lobby 'till I see you there
One at a time up to our room
Make sure nobody sees you creeping discretely
Just them wondering what we're doing

The elevator is building anticipation
And we both are sick of waiting
Hearts tired from pacing, yeah.
In my mind, you're mine...

Tell me how bad
Do you want it?
Oh you want it
But how far is to far?

This is the sign
That you've been waiting for
Grab your composure
'Cuz baby it's check-out time

Tell me how bad
Do you want it?
Oh you want it
But how far is to far?

This is the sign
That you've been waiting for
Grab your composure
'Cuz baby it's check-out time

(Out time...)

How many times must I tell you?
We're second best to no one

Yeah, how many times must I tell you?
We're second best to no one

How many times must I tell you?
We're second best to no one

Uh-huh, how many times must I tell you?
We're second best to no one

Tell me how bad...

Do you want it?
Oh you want it
But how far is to far?

This is the sign
That you've been waiting for
Grab your composure
'Cuz baby it's check-out time

Tell me how bad
Do you want it?
Oh you want it
But how far is to far?

This is the sign
That you've been waiting for
Grab your composure
'Cuz baby it's check-out time

(Take you're watch, it's our time)
Tell me how bad

(Haha, uh.)
How bad...
