### "This Rope Is Long"

This rope is long  
This rope is long  
It takes awhile  
To bring me back

This rope is long  
This rope is long  
Sometimes I can't tell  
It's what's brought me back

This rope is long  
Promises harmony  
So I don't mind  
When it wraps itself around me

But I'm already there  
I'm already there  
I can hear its heart  
I'm already there

Though there is some slack  
I'm already there  
I can hear its heart  
I'm already there  
In it's arms
