"Ceremonial Death"

The world is old, light has died
Your lies have become law
With our last strength for freedom cry
Backs broken from your last straw

FIRE will burn your fortress down
BLOOD your life seeps into the ground

Break down their doors, take no prisoners
The only solution is war
Dragged to the streets, against the wall
Heed this call!

The noose is tied around your neck
CEREMONIAL DEATH
Pray for mercy as you die
CEREMONIAL FUCKING DEATH

Solo: JonestÃƒÂƒwn

Throw them to the fucking wolves
No mercy, hang them high
You stare in the face of vengeance
Eye for an eye, you fucking die!

FIRE will burn your fortress down
BLOOD your life seeps into the ground
