[LeToya]

Yeah ohhh, what you do to me
I've been patiently waiting on you, I've been
antisipating your arival, so baby I
(I hope that you're ready) I hope that you're ready
cause baby I'm ready for you
(So close the door) cause I got so much to give I hope
that you can handle it
Cause if you only knew (knew), how I feel for you (you),
I got somethin' for you

[Chorus]

Said I got somethin' for ya, so wont you come over
babe (come over)
Tell me do you get the picture, do you get what I'm
saying (saying)
Said you got me so anxious, don't keep me waiting
(come over)
Cause boy I got somethin' for ya, I got something for ya
babe

[LeToya]

Boy I tried to be, I tried to play it cool, but I can't help
the way I want you
So tell me what (tell me what your feeling) tell me what
your feeling (feeling) boy I gotta thing for you
(I don't know why) why I can't stop thinking, why I can't
stop wanting to be next to you
(You) boy you doing something to me I got something
for you ohhhh

[Chorus]

Said I got somethin' for ya, so wont you come over
babe (come over)
Tell me do you get the picture, do you get what I'm
saying (saying)
Said you got me so anxious, don't keep me waiting
(come over)
Cause boy I got somethin' for ya, I got something for ya
babe

[LeToya]

(Can I make a suggestion) baby lets be alone (can I
make a suggestion) take a hold of
Me and tell me what you think
(Can I make a suggestion) turn down the lights
(Can I make a suggestion) turn down the lights, cause
I'm ready for you

[Chorus]

Said I got somethin' for ya, so wont you come over
babe (come over)
Tell me do you get the picture, do you get what I'm
saying (saying)
Said you got me so anxious, don't keep me waiting
(come over)
Cause boy I got somethin' for ya, I got something for ya
babe
