Your as good as your word
I guess that don't apply to you
You told me so many things but none of them were true
Pretended not to see the truth
I was living lies
Now I see that you were just messing with my mind

Chorus:

You told me that even though we argue,
You told me I love, you said I adore you. (you said)
You told me that you'd never leave,
You said you'll always be around me baby. (you said)
You told me that you don't want no drama,
I gave you my honour, took me home to meet your
mama. (you said)
You told me that you'd never leave, you said
You'd always be around here baby. (you said)

I'm sitting here confused
You didn't do what you said you'd do

I have my heart to you
You said I was the only one you gave yourself too
I trusted that, and I believed in you (you said)
You said you loved me unconditionally,
But why did you lie? (you said)
I don't deserve to feel this hurt inside
Oh why, why (x2) (you said)

Chorus:

You told me that even though we argue,
You told me I love you, you said I adore you. (you said)
You told me that you'd never leave,
You said you'll always be around me baby. (you said)
You told me that you don't want no drama,
I gave you my honour, took me home to meet your
mama. (you said)
You told me that you'd never leave, you said
You'd always be around here baby. (you said) (x2)
