It's Monday morning, checked my cell phone,
But nobody's calling me, no,
I tried to ignore it but it's sinking in that I'm,
I'm all alone with me,
Whoa, so I stare at your picture for the last time,
To ease my mind this time I won't even break down and
cry,
I had good reason for leaving you I was never enough
for you,
You had me down in myself, putting me down,

Cause I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you,
I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you,
No more [x6]

And baby I stayed with you so long that I lost myself,
Now who would've thought that someone so
independant,
Would become so damn submissive,
And sometimes in the back of my mind I'd be missing
you, missing you,
But I can get through this cause I can do better, so
much better,
So I stare at your picture for the last time,
To ease my mind, this time I won't even break down
and cry,
I had good reason for leaving you I was never enough
for you,
You had me down in myself, putting me down,

Cause I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you,
I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you,
No more

Cause I've been down and out too long,
It's time to pick my head up baby,
Learn how to be a better baby,
This heartbreak is today,
I'd be moving on,
And I won't give up on love,

Cause I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you,
I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you,
Cause I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you,
I'm a keep smiling, I'm a keep it moving,
Cause I don't need you, don't need you, don't need
you, don't need you
No more, no more, no more, no more, no more, no
