Over, over

What if I knew you was still keepin' old
What's her name around then you couldn't say nothin'
And what if you was spendin' up my money
Taking her out on the town then you couldn't say
nothin'

What if I knew all the nights you was out
You wasn't with your friends then you couldn't say
nothin'
What if I been done with you and you just didn't know
until the end
Don't even try 'cause it would be

Over if that's the way that you was treating me
It would be over, there would be no need to beg me,
baby please

'Cause you, you would know to leave
You, you would know to pack your things
Don't, don't forget your keys, I'm tellin' you it would be
over
No get back, no sorry, can't fix that, just over

What if I was washin' and found some movie tickets in
your jeans
You would try to make up something
And what if you forgot to throw away the gift receipt
from Tiffany's
You would try to make up something

What if she was callin' me and tellin' me for months
she's been with you
You would try to make up something
What if I had pictures and a DVD of everything you do
It would be no use 'cause it would be

Over if that's the way that you was treating me
It would be over, there would be no need to beg me,
baby please

'Cause you, you would know to leave
You, you would know to pack your things
Don't, don't forget your keys, I'm tellin' you it would be
over
No get back, no sorry, can't fix that, just over

Now if you were the kinda man to risk losing this love
we have
You would be crazy, I know
And I know we get tempted but it don't make a
difference
'Cause we should be worth a lot more

I put up with a lot, I'm a give it all I got
'Cause hard times only make us closer
Gonna play the fool I'm not before you move too far,
just stop
'Cause I promise that it'll be over

It would be over if that's the way that you was treating
me
Tellin' you it would be over
There would be no need to beg me, baby please

'Cause you, you would know to leave
You, you would know to pack your things
Don't, don't forget your keys, I'm tellin' you, I'm tellin'
you, over
No get back, no sorry, can't fix that, just over
