when life closes in praise
seems the pain wont end praise
with all you have
with all you can
lift your voice and praise
when all hope seems lost praise
with everything youve got praise
with all you have with all you can praise
lift your voice and praise
when it dont make sense (praise)
when you cant find one friend (praise)
anyway any how with all you have come on somebody
he'll make a way when there seems no way (yes he
will)

hes watching over you (praise praise)
when it makes no sense (ooo praise)
when you cant find one friend (praise ooo praise)
oooo yea praise yea woooooo
(praise oooo praise) praise straight through your pain
oooo yea oooo yea (praise)
lift your voice and praise praise praise
lift your voice and praise
