A part of me wants to leave you alone  
A part of me wants for you to come home  
A part of me says I'm living a lie  
(And I'm better off without you)

A part of me says to think it through  
A part of me says I'm over you  
A part of me wants to say goodbye  
A part of me is asking why?

A part of me wants to leave  
But a part of me wants to be here with you  
And every time I think we're over and done  
You do something to get me back loving you  
And you got me just torn

Torn in between the two  
(Oh yeah)  
'Cause I really wanna be with you  
But something's telling me

I should leave you alone  
(I really want to be with you)  
Leave you alone, leave you alone

And you got me just torn in between the two  
(In between the two)  
'Cause I really wanna be with you  
(Be with you)

But something's telling me  
I should leave you alone  
(You alone)  
Leave you alone, leave you alone

There were no issues when we started out  
It was cool, it was everything that love's about  
But something happened, plus I feel it's over now  
(Cause I can't understand you now)  
Now, oh  
(I just can't understand you now)

A part of me says it's all my fault  
A part of me says he ain't what you want  
A part of me says to get my bags  
A part of me says I can't do that

A part of me wants to leave  
But a part of me wants to be here with you  
And every time I think that it's over and done  
You make me fall back in love  
You got me just torn

Torn in between the two  
(Oh yeah)  
'Cause I really wanna be with you  
But something's telling me

I should leave you alone  
(I really want to be with you)  
Leave you alone, leave you alone

And you got me just torn  
In between the two  
(In between the two)  
'Cause I really wanna be with you  
(Be with you)

But something's telling me  
I should leave you alone  
(You alone)  
Leave you alone, leave you alone

Torn in between the two  
(Between the two)  
'Cause I really wanna be with you  
(Be with you)

But something's telling me  
I should leave you alone  
(You alone)  
Leave you alone, leave you alone

And you got me just torn  
In between the two  
(Torn in between the two)

'Cause I really wanna be with you  
(Really wanna be with you)

But something's telling me  
I should leave you alone  
(Telling me I should leave)

Leave you alone  
(Alone)  
Leave you alone  
(Alone)

So many times I  
(I was ready to go)  
So many times I  
(Had my foot out the door)

So many times I  
(I thought to give him a chance)  
(Thought he'd be a better man)  
Now I'm sitting here and I'm so confused

'Cause I keep fighting myself for you  
(I don't know how much more I can take)  
(But I can't feel this way)  
(You got me so torn)

Torn in between the two  
(Oh yeah)  
'Cause I really wanna be with you  
But something's telling me  
I should leave you alone  
(I really want to be with you)  
Leave you alone, leave you alone

And you got me just torn  
In between the two  
(In between the two)  
'Cause I really wanna be with you  
(Be with you)

But something's telling me  
I should leave you alone  
(You alone)  
Leave you alone, leave you alone

Torn in between the two  
(Oh yeah)  
'Cause I really wanna be with you  
(I really wanna be with you)

But something's telling me  
I should leave you alone  
Leave you alone  
Leave you alone  
(But I don't know)

And you got me just torn

In between the two  
(Should I stay or should I go?)  
'Cause I really wanna be with you  
(I don't know)

But something's telling me  
I should leave you alone  
(You alone)  
Leave you alone  
Leave you alone  
(You alone)

And you got me just torn  
In between the two  
(I'm torn in between the two)  
'Cause I really wanna be with you  
(I really wanna be with you)

But something's telling me  
I should leave you alone  
(But I don't know)  
Leave you alone, lave you alone

And you got me just torn  
In between the two  
'Cause I really wanna be with you  
But something's telling me  
I should leave you alone  
Leave you alone, leave you alone

And you got me just torn  
In between the two  
'Cause I really wanna be with you  
But something's telling me  
I should leave you alone  
Leave you alone, leave you alone

And you got me just torn  
In between the two  
'Cause I really wanna be with you  
But something's telling me  
I should leave you alone  
Leave you alone, leave you alone
