You know it's sick
to think that you would know that I,
I could save you
cause I can't save
we got to get it right
let's make sure this time that tonight
I could save you
or i could break you.

(chorus)
Don't believe in me, don't believe in me
cause i would let you down
cause i would let you (repeat)

This is about to show
how much i love you,
if you'll let me show
cause i could save you
or i could break
we got to get it right
let's make sure that you know tonight,
that i could save you
or i could break you

(chorus)
Don't believe in me, don't believe in me
cause i would let you down
cause i will let you (repeat)
