I, I could write a symphony
With all the time that I will think
About you.
And I, I'll just sing a melody
Simple like it needs to be,
For you.

But it kills me that you wont see
The same blue sky together we'd,
Fit perfectly, underneath

We still have memories!

Autumn days and summer nights
The mess we made with the pointless fights
It's all that I crave, Wish you didn't say,
Goodbye to rain and city lights
Well now you're gone and I don't know why
I wont do, I'm missing you, I'm missing you
~~music~~
Well the sun has set, on this quiet town
Where our hearts first met
I wont say, gooodbye
With knowing gets(sp?) and the seasons change
And the seperate lives begin
You're not by, my side

But it kills me that you wont see
The same blue sky together we'd,
Fit perfectly, underneath

We still have memories!

Autumn days and summer nights
The mess we made with the pointless fights
It's all that I crave, Wish you didn't say,
Goodbye to rain and city lights
Well now you're gone and I don't know why
I wont do, I'm missing you, I'm missing you

Hmmm,

I'm missing you

Maybe I'll make believe, that we're holding tight
Like we used to do, Almost every night
And now everytime I close my eyes
I picture you and all the times
We smiled and laughed and lied and cried
Under the stars I saw in your eyes
They're deep and blue just like the sea
They pulled me in and now I'm drowning
Save me, save me!
Just give me anything at all
Anything at all!

Just take the pain away,
Cause it even hurts to say...

I'm missing you! (X7)

Autumn days and summer nights
The mess we made with the pointless fights
It's all that I crave, Wish you wouldn't say,
Goodbye to rain and city lights
Well now you're gone and I don't know why
I won't do, I'm missing you, I'm missing you
I'm missing you...
