"Let's Get High"

Lets do something good tonight
Why don't we just stay home all quite and nice
Forget about the movie
Forget about the night life
Lets get high
Lets get high
Light the candles one to three
And that should brake a record sounds good to me
Forget about the problems
Forget about the bad times
Lets get high
Lets get high
Lets get high
Lets get high
They say that heavens where you go when you die
We don't have to wait that long
But i don't' try
Lets get high.... (repeat
