On the streets  
There's no more pavements of gold  
In the heat  
There's no more golden years -  
There your feet  
They try to run from the cold  
No retreat there's nowhere left to go

Follow me to the end of the earth  
Follow me before it all breaks down  
Follow me you'll find if you go there  
Your waiting there to be found

Steel and stone the city's crushing you  
Stand alone but that's no way to be  
Follow me you'll find if you go there  
Follow me you turn around

We believe the same old story  
Where heroes wear the crown  
We don't see the fame and glory  
And watch the world go down

Silver towns that confuse you with  
Silver words that turn your head around  
Silver streets that amuse you with  
Silver dreams and silver sounds

Follow me to the end of the earth  
Follow me before it all breaks down  
Follow me you'll find if you go there  
Your waiting there to be found

We don't need these shades of glory  
We don't want that crown  
There's something sacred on this story  
The heroes all fall down

It's time now

It's time now to move a bit

Forget about the stone faced angels  
Just move along keep moving on  
Silver to gold (Repeat)

Follow me (x5)
