I know you live on my street
I sometimes wonder
Why we don't meet
I've seen your face in the sky
Twenty-five stories high
You never come down to earth
Communication (communication)
Could hardly be much worse
Don't keep me here in the dark
I want to be your friend
Your fears are way off the mark

Every generation
Sees it their own way
Never learning their lessons
Making the same mistakes again

It's not the same for us - as history fades away
It's not the same for us - you must hear me when I say

Look out on this brave new land
Think of the future
The future that lays in our hands
Our leaders live in the past
We can change it
There's something to hope for at last

Every generation
Sees it their own way
Why don't we learn our lessons
Don't make the same mistakes again

(chorus)

What dreams are you chasing now?
What are you living for?
The problems that we're facing now
Nobody faced before
Please don't reject me
In anger or in sorrow
You've got to accept me

If we're to make a better tomorrow

It's not the same - it's not the same for us
