The sap is rising
And there's no disguising
What I feel for you
So mesmerising
Got me fantasising
Nothing I won't do

Parascending, whoa oh
But it's all depending
On your sky so blue
My wings keep stalling
From the sky I'm falling
And it's over - all over you

All over you

Let me build a nation
That bears no relation to the one we knew
Take inspiration
From my own salvation
'cause it's over - all over you

Get on board the gravy train
Off the rails if you don't keep me sane
Justify the things I do
Just believe that it's all over you

All over you

The sap is rising
And there's no disguising
What I feel for you
So mesmerising
Got me fantasising
And it's over - all over you

[Spoken]

Through the heat-haze and the blue
I will shimmer and distort
And become what you always knew
But were never taught in this sad time

Take on board the things I say
Just be sure that you'll be mine someday
Justify the things I do
Just believe that it's all over you

All over you

The sap is rising
Got me fantasising
So mesmerising
And there's no disguising
That it's over - all over you
