

## Level 42 "Fallow Me (live)"

Visit "[Fallow Me \(live\)](#)" on [MotoLyrics.com](https://MotoLyrics.com)

It's time now to move a bit  
Forget about the stone faced angels  
Just move along keep moving on  
Silver to gold on the streets

There's no pavements of gold, in the heat  
There's no more golden years - there your feet  
Follow me to end of the earth before it all breaks down

They try to run from the cold  
No retreat there's nowhere left to go

It's time now to move a bit forget about the stone age  
ages  
Just move along keep moving on  
Silver to gold and stone

The city's crushing you stand alone but that's no way to  
be  
Follow me to the end of the earth  
Follow me before it all breaks down  
Follow me you'll find if you go there  
Your waiting there to be found

Follow me you turn around  
We believe the same old story  
Where heroes wear the crown  
We don't see the fame and glory  
And watch the world go down
