I know you live on my street
I sometimes wonder why we don't meet
I've seen your face in the sky
Twenty-five stories high

You never come down to earth
Communication could hardly be much worse
Don't keep me here in the dark
I want to be your friend, your fears are way off the
mark

Every generation
Sees it their own way
Never learning their lessons
Making the same mistakes again

It's not the same for us
As history fades away
It's not the same for us

It's not the same for us
You must hear me when I say
It's not the same for us

Look out on this brave new land
Think of the future, the future that lays in our hands
Our leaders live in the past
We can change it, there's something to hope for at last

Every generation
Sees it their own way
Why don't we learn our lessons?
Don't make the same mistakes again

It's not the same for us
As history fades away
It's not the same for us

It's not the same for us
Do you hear me when I say?
It's not the same for us

What dreams are you chasing now?
What are you living for?
The problems that we're facing now
Nobody faced before

Please don't reject me
In anger or in sorrow
You've got to accept me
If we're to make a better tomorrow

It's not the same
It's not the same for us
