Though I live on the edge time is on my side  
all the doors to my life are open wide  
just as long as the wheels keep on turning 'round  
I will live for the groove 'til the sun goes down

living it up, living it up  
I can feel it  
living it up  
is it a crazy notion?  
living it up, living it up  
I can feel it  
living it up  
I got forward motion

I don't wanna go to war, I don't wanna go to war  
I said I know what I want and I don't wanna go war - do  
you follow me?  
I saw a soldier standing in a bar  
looked so tired he'd come so far  
he said "I need to love someone, before they drop the  
atom bomb"

there's a girl at the back making eyes at me  
and her hair long and black is a sight to see  
but I get kind of scared when love's around  
I just live for the groove 'til the sun goes down

living it up, living it up  
I can feel it  
living it up  
is it a false emotion?  
living it up, living it up  
I can feel it  
living it up  
I got forward motion

so I'm a-taking you out but I'm a-faking  
I'm married to the beat  
but to the music I gave the heart I could have given you  
still there's something 'bout the way that you move  
and the way that people stare it's the shock of the new  
I want my friends to see me standing next to you

the sun goes down . . .

time is on my side  
I don't care what they say I'll enjoy the ride  
but I get kind of scared when I turn around  
so I'll stay with the groove 'til the sun goes down

living it up  
living it up  
I can feel it  
living it up  
I got forward motion

ooh - watch her dance  
there must be one like her in every club in every town  
but I don't mind if that the way she wants to be  
there's something 'bout her that reminds me of me  
she's my soulmate - we'll be together 'til the sun goes  
down

the sun goes down

living it up  
living it up  
I can feel it  
living it up  
I got forward motion
