There's a shooter in the school, get your fuckin' heads
down

Or I'll blow them clean off you luckless fools

The cracked windows break, start crashing

The alarms sound a warning, as we all fall

Burn America Burn (blow yourself away)

Burn America Burn

Burn America Burn (blow yourself away)

Stun grenades flash, as we are dropping

Blood on the blackboard spells out truth

The SWAT teams are crawling with stealth

And the gunman has just one round left, and he's
saved it for himself

Burn America Burn (blow yourself away)

Burn America Burn

Burn America Burn (blow yourself away)

Burn America Burn

The cops are fighting, and some are on the run

There's a blood-bath in the school, and I've only just
begun

The sun is shining, the days just begun

Start praying to your gods 'cos I'm still having fun

I never looked like a monster

In the mirror you just saw yourself

Did you notice me at the prom-dance

So much like you

That you never stood a chance

Burn America Burn (blow yourself away)

Burn America Burn

Burn America Burn (blow yourself away)

Burn America Burn
