The NATO bombs were like sleeping pills  
When I smoked the weed that killed Elvis  
I took enough to make me ill  
When I smoked the weed that killed Elvis  
I was public enemy number one  
When I smoked the weed that killed Elvis  
I chewed semtex like bubble gum  
When I smoked the weed that killed Elvis

Now Slobodan was a tennis pro  
When I smoked the weed that killed Elvis  
I turned fuckin'Eskimo  
When I smoked the weed that killed Elvis

I found a place where I could die  
When I smoked the weed that killed Elvis  
I found god but I lost an eye  
When I smoked the weed that killed Elvis

Happiness was a girl I knew  
When I smoke
