The NATO bombs were like sleeping pills
When I smoked the weed that killed Elvis
I took enough to make me ill
When I smoked the weed that killed Elvis
I was public enemy number one
When I smoked the weed that killed Elvis
I chewed semtex like bubble gum
When I smoked the weed that killed Elvis

Now Slobodan was a tennis pro
When I smoked the weed that killed Elvis
I turned fuckin'Eskimo
When I smoked the weed that killed Elvis
I found a place where I could die
When I smoked the weed that killed Elvis
I found god but I lost an eye
When I smoked the weed that killed Elvis

Happiness was a girl I knew
When I smoke
