Visit "[Gone](#)" on MotoLyrics.com

I see you in my dreams
I can't escape the sore memories
I wonder how I'll ever move on
When you're gone

I'm not a drifter anymore
I've done that road, had enough, seen it all
I wonder how my heart will move on
When you're gone
When our love is gone

[Refrain:]
If love can't live eternally
A million years, a thousand centuries
Why do our foolish hearts
Swear to love forever
Why do we take that road
If we can't stay on it together

Is it only make believe
Is it only broken hearts and empty dreams
I wonder how my hear will move on
When you're gone
When our love is gone

[Refrain]

When our love is gone
How can our hearts move on
When our love is gone

[Refrain]

When our love is gone
How can our hearts move on
When our love is gone
