Do you like what you see?
Do you like what you see?

I was taking off, I was leaving ground
I was rocketing the blue skies
With my engines roaring

It doesn't seem so long ago
But as I take a look down now
I see the world's gone for me

Feel unreal, I drift in dreams of home
But I'm still out here alone
Trying to fight the tears of sadness
Reflection in the mirror, madness
Calling me, calling me

Do you like what you see?
Do you like what you see?

Tell me how does it feel
When the dreams have come real
You're the last man in the universe

You're the king of the hill
It's a mission fulfilled
When there's no return
For Mister Universe

If only I could turn back time
I would give up on ambitions
End this search for glory

Getting closer to the end of the line
Now my eyes are finally open
At the end of story

Deep inside I know there's no way home
Oh, I'm left out here alone
Trying to fight the tears of sadness
Reflection in the mirror, madness
Calling me, calling me

Do you like what you see?
Do you like what you see?

Tell me how does it feel
When the dreams have come real
You're the last man in the universe

You're the king of the hill
It's a mission fulfilled
When there's no return
Mister Universe

So do you like what you see?
You're a statue of greed
The last man in the universe

You're the king of the hill
With your mission fulfilled
And there's no return
For Mister Universe

Do you like what you see?
Do you like what you see?

Tell me how does it feel
When the dreams have come real
You're the last man in the universe

You're the king of the hill
It's a mission fulfilled
When there's no return
Mister Universe

So do you like what you see?
You're a statue of greed
The last man in the universe

You're the king of the hill
With your mission fulfilled
And there's no return
For Mister Universe
