Step right into a new world
Don't be afraid
Cast away the chains of reason
Don't hesitate

It's all here and now
Don't wait 'til tomorrow

Believe these words
And make your dreams come true
Put your faith in magic
I'll cast a spell on you

It's all here and now
Don't wait 'til tomorrow

[Refrain:]
You can be forever young
Make your wish it'll all be yours tomorrow
I will make your worries gone
Just call me and name your desire
Superstition

Hand me your dreams
And I will bring them alive
I'll turn your world around
In a blink of an eye

It's all here and now
Don't wait 'til tomorrow

[Refrain]

Name your hearts desire
It's granted
I'm the master of illusion
Superstition
