To all those who have been took  
They better take another look  
Because they're never really what they seem  
Those to betray me, I'm an honest man  
Ever to set foot upon this promised land  
Before you take them by

Love has faded  
I thought I'd let you know  
Missing you is natural  
Cold and jaded  
Don't you follow suit  
Love has faded  
Cold and jaded

You can not pretend  
That there's nothing left to defend  
How can you decide  
Who goes and who stays  
You talked me out my vibe  
So much that I can't keep track  
And you forgot about what they need  
And then you plant another hate seed

Love has faded

I thought I'd let you know  
Missing you is natural  
Cold and jaded  
Don't you follow suit  
Love has faded  
Cold and jaded

Soon as they come, they go even faster  
Must be destined for a million disasters  
There she goes  
There she goes again

Love has faded  
I thought I'd let you know  
Missing you is natural  
Cold and jaded

Don't you follow suit  
Love has faded  
I thought I'd let you know  
Missing you is natural  
Cold and jaded  
Don't you follow suit  
Love has faded  
Cold and jaded

Cold and jaded  
Cold and jaded  
Love has faded  
Cold and jaded
