I knew you all my life
Though only through my dreams
Look inside your mind
And see what's on mine

Calling out my name, I see you there
This frozen cold, it isn't fair
How much of this pride will I spare
We both are seething

All I know is to act now
(All I know)
And hold on, this one's the real one
Just calm down, don't look back

This is what we never had
I never felt so alive til I saw blue eyes
Until now it wasn't hard to leave, I'm wanting more

Everyone around but still alone
Try to grasp losing the flow
Use a single emotion
You left me totally motionless

So quick so soft like a thief in the night
Came here and changed my life
Everyday the same, just sit and stare

Will I see you up in the air?
These separate lives we don't share
Again I'm leaving

All I know is to act now
(All I know)
And hold on, this one's the real one
Just calm down, don't look back

This is what we never had
I never felt so alive til I saw blue eyes
Until now it wasn't hard to leave, I'm wanting more

I thought all this time

I would end up alone
Beside you I lay
And watch you breathing

All I know is to act now
(All I know)
And hold on, this one's the real one
Just calm down, don't look back
This is what we never had
I never felt so alive til I saw blue eyes

(Until now)
I never felt so alive
(Until now)
I never felt so alive
Until now it wasn't hard to leave
I'm wanting more
