Where did you go?
What happened to the life we had?
It took an unexpected turn

And even though we tried so hard
We only got so far
Oh, what did we learn?

Another day
Another night without you here
And nothing ever seems to change

And I know, I can't escape
'Cause I always see your face
Every time I close my eyes

If the sun can rise above us every single morning
And if the moon can turn the tide of every sea
People falling in and out of love without a warning
If they get a second chance then why can't we?

If there's a way
(If there's a way)
To let me in your world again
And put the pieces back in place oh, ohh

If we take a one day at a time
Who knows what we may find
Our love never went away
And we can get stronger every day

If the sun can rise above us every single morning
And if the moon can turn the tide of every sea
People falling in and out of love without a warning
If they get a second chance then why can't we?

Aren't we tired of saving all the same old faces
And pretending that we're better off alone
And maybe deep inside we both know that our place is
Here all along, here all along

People falling in and out of love without a warning

They get a second chance, then why can't we?
Oh, let's take a second chance and then we'll see
