

Leviticus "Don't Go Out"

Visit "[Don't Go Out](#)" on MotoLyrics.com

The Kingdom of God doesn't come
In such a way as to be seen
No one will say, look, here it is!
No one will say, there it is!

Because the kingdom is within you
It is here to live inside of you

Don't go out looking, looking for the kingdom
Cause it's already here
As the lightning flashes across the sky
And light up from one side
From one side to the other

So will the Son of man be in his day
He is here to live inside you

The Son is the same, yesterday
Today and in the future
