"Doubt"

Today yes right now, the Lord is asking
He's asking for you, Your time has come
It is already here, for He's calling right for you

Yes you have your kind of faith, but is neutral
And life is surrounded with lots of doubt

I have met you
And I know, oh I know you
They call you religious, but I wish
Oh I wish, I wish that you were a Christian

Yes you have your kind of faith, but is neutral

And life is surrounded with lots of doubt

Yes you have your kind of faith, but is neutral
And life is surrounded with lots of doubt

I wish you would live as you teach
And that the Lord could live in you
That your doubts would turn into a victory song
For He's calling, calling right for you

Yes you have your kind of faith, but is neutral
And life is surrounded with lots of doubt
