Baby, let me be the first to mention  
That I'm glad you're in my life  
You're the sunshine after the rain  
I wanna give u all of my attention  
I wanna cater to your needs  
Be all that I can be

Bridge:

Cos you are so beautiful  
You are my miracle  
Always got my back  
Wherever I am at  
If I'm high I'm feeling low  
But tonight it's all about you  
Let me set the mood  
I wanna make your body glow  
Hold you tight and make it slow

Chorus:

So kick back, baby relax  
Let me take off your shoes  
Oh girl I'm gonna do you right  
Cos Baby, tonight's your night  
So kick back, baby relax  
Here's what I'm gonna do  
Oh Baby, I'm gonna love you right  
Until the early mornin

Baby let's take it to the shower  
Let me soap ya body down  
There's nothing that I won't do  
You know deep down how much I love ya  
Let me tell you here and now  
My feet can't touch the ground

Bridge:

Cos you are so beautiful  
You are my miracle  
Always got my back  
Wherever I am at  
If I'm high I'm feeling low

But tonight it's all about you  
Let me set the mood  
I wanna make your body glow  
Hold you tight and make it slow

Chorus:  
So kick back, baby relax  
Let me take off your shoes  
Oh girl I'm gonna do you right  
Cos Baby, tonight's your night  
So kick back, baby relax  
Here's what I'm gonna do  
Oh Baby, I'm gonna love you right  
Until the early morn

I wanna take my time nice and slow  
Put on some soft music  
Turn the lights down low  
Set the scene with candles  
Disconnect the phone  
Baby, no interruptions  
Gotta stay in the zone  
Kiss ya neck and work it down to ya feet  
Then work it all over ya body  
Till our lips meet  
Girl, I ain't gonna stop  
Gotta hit ya spot  
There's nothing that I won't do  
Let's make it hot

Cos tonight it's all about you  
Let me set the mood  
I wanna make your body glow  
Hold you tight and make it slow

Chorus:  
So kick back, baby relax  
Let me take off your shoes  
Oh girl I'm gonna do you right  
Cos Baby, tonight's your night  
So kick back, baby relax  
Here's what I'm gonna do  
Oh Baby, I'm gonna love you right  
Until the early morn
