I wanna sex you up
Let me freak you up
I wanna sex you up
I know the way you like it
Let me freak you up

Girl, you are my destiny
Baby, I like the way you walk the way you walk the way
you talk
You, you are a mystery
Come on baby, let me inside
I wanna sex you up, that's right
Come on now let's get it on tonight
I wanna sex you up
Come on now let's get it on

Chorus x2

I wanna sex you up and down
Freakin' to the sound let's toss it around
Come on now, I feel the rhythm as I hit em
You boost that is as I slide up in there
Well let's flip it side to side
We'll take it slow then fast for a funky ride
We gonna make it last the whole night long
'cause I wanna sex you up and get it on

Chorus x2

All I wanna do is hold you tonight
And maybe this time's for you and me, can't you see
You, you know I'll treat you right
Oh yeah, come on baby let me inside
Heyah, heyah, I wanna rock with you
Heyah, heyah, do you feel it too
Heyah, heyah, I wanna rock with you
Heyah, heyah, do you feel it too

Chorus x2
