Torment Me
Blacked
Softied
Don't neutralise in thoughtfulness
Strangeing
The water
Pollute me
By the love they lost for you
For you
Drainageity
The senescens
Running from the sacrifice
The got you
At fin foyne
Letning you
For those who died, who died
Torment me
Lusting yourself with emptiness
You can't connect the dreams they sent
Doing the things lay they all expect rage
Free from all the thoughts they had
Suicide
