"I Will Show You Mine"

Visit "[I Will Show You Mine](#)" on MotoLyrics.com

Chewy bubilicious and coco-pop
Got you on my mind and I just won't stop
Tilt-a-wirl baby girl, slip and slide
We can swing it left 'cause I think your fly

You got the curves, the sway, I can't look away
Girl, you got my pure devotion
With every move you make, I'm so hard, I could break
Girl, your poetry in motion

Oh, baby, you know
Your drivin' me crazy
But tonight I'm watching every dream I had
Come true

You say I will show you mine, if you will show me yours
And one by one, we're throwing all our clothing on the
floor
You say, don't blow out the candles 'cause I want you to
see
And suddenly your naked, standing right in front of me
Baby, I see you

Chewy bubilicious and coco-pop
Got you on my mind and I just won't stop
Tilt-a-wirl baby girl, slip and slide
We can swing it left 'cause I think your fly

You've got the mouth, the lips girl, I've got to kiss
All your body's made for pleasure
You make me feel like a man should feel, like a man of
steel
You've got a hidden treasure, oh

Oh, baby, you know
Your drivin' me crazy
But tonight I'm watching every dream I had
Come true

You say I will show you mine, if you will show me yours
And one by one, we're throwing all our clothing on the
floor

You say, don't blow out the candles 'cause I want you to see
And suddenly your naked, standing right in front of me
Baby, I see you

Pop, rock baby, you don't stop, we got this
Met up on the L train, radiator hotness
Orange tootsie pop, and a Colgate smile
Visions in my mind of me and her getting wild

Shimmie-coco-pop boogie down fluffier nuttier
If you get with me then there could never be another
Come on everybody, let's all get down
I need a real love baby, won't you please come round'

You say I will show you mine, if you will show me yours
And one by one, we're throwing all our clothing on the floor
You say, don't blow out the candles 'cause I want you to see
And suddenly your naked, standing right in front of me
Baby, I see you

You say I will show you mine, if you will show me yours
And one by one, we're throwing all our clothing on the floor
You say, don't blow out the candles 'cause I want you to see
And suddenly your naked, standing right in front of me
Baby, I see you

Chewy bubilicious and coco-pop
Got you on my mind and I just won't stop
Tilt-a-wirl baby girl, slip and slide
We can swing it left 'cause I think your fly
Baby, I see you

Chewy bubilicious and coco-pop
Got you on my mind and I just won't stop
Tilt-a-wirl baby girl, slip and slide
We can swing it left 'cause I think your fly
Baby, I see you
