Marlyn without a Joe D'maggio  
Oh where'd that horse and carriage go?  
In the castle I'll build for you  
On an island meant just for two

What if people stuck around?  
What if all that's lost was found?  
What if I could be  
The only one that she'd ever dream of?

If I were some movie star  
With some big expensive car  
At some big first night premiere  
With Ben Affleck and Richard Gere

Would you give me just one look  
If I wrote some obscure book?  
Would you give me just one chance  
In some other circumstance?

Someone like me deserves someone like you

Marlyn without a Joe D'maggio  
Oh where'd that horse and carriage go?  
In the castle I'll build for you  
On an island meant just for two

What if people stuck around?  
What if all that's lost was found?  
What if I could be  
The only one that she'd ever dream of?

If I was the great Houdini  
Granting wishes like a genie  
If I were some big tough guy  
Who went to Mars and made you cry

Told you lies because they say  
Nice guys will lose anyway  
In some other circumstance  
Would you give me just one chance?

Someone like me deserves someone like you

Marlyn without a Joe D'maggio  
Oh where'd that horse and carriage go?  
In the castle I'll build for you  
On an island meant just for two

What if people stuck around?  
What if all that's lost was found?  
What if I could be  
The only one that she'd ever dream of?

What if I, what if I was the only one?

If I were a super hero  
A good fella like De'niro  
If I could face all my fears  
Dated girls like Britney Spears

Wore black leather on a Harley  
In Jamaica like Bob Marley  
In some other circumstance  
Would you give me just one chance?
