I got caught in a storm
and carried away
i got turned, turned around

I got caught in a storm
that's what happened to me
so I didn't call
and you didn't see me for a while

I was rising up
hitting the ground
and breaking and breaking

I was caught in a storm
things were flying around
and doors were slamming
and windows were breaking
and I couldn't hear what you were saying
I couldn't hear what you were saying
i couldn't hear what you were saying

I was rising up
hitting the ground
and breaking and breaking

rising up
rising up
