#### English translation

the moonlight shines through my lofty fingers  
whose hand does my outstretched arm seek?  
like uttered words that get swept away by the wind  
i see the same dream and a lonesome shadow under  
the moon if i had to wish  
for several continuations to the dream  
besides wishing for the day the dream ends  
what else would i wish for?  
it moved me to witness what had been kept inside my  
heart unfold  
in a dream where i spread my wings to the world i long  
for  
i awoke in the morning with the hazy feeling that i  
was waiting for somebody  
scared of being alone,  
i clung to the vigil moon deep in the night if,  
in exchange for giving up everything,  
i could have a single wish  
to be heard and granted  
what wish would i make to the sky?

the moonlight shines through my lofty fingers  
whose hand does my outstretched arm seek?
